SCREENSHOT OF JENKINS JOB OUTPUT

This screenshot shows the Jenkins web interface for job #16. The left sidebar contains navigation links: Status, Changes, Console Output (selected), Edit Build Information, Delete build '#16', Git Build Data, Restart from Stage, Replay, Pipeline Steps, Workspaces, and Previous Build. The main area displays the 'Console Output' for build #16, which is a declarative pipeline. The output shows the pipeline starting with a checkout of the Jenkinsfile from a GitHub repository. It then proceeds to fetch changes from the remote repository and checkout the specific commit. The output is as follows:

```
Started by user Basirat Kareem
Obtained Jenkinsfile from git https://github.com/women-techsters-fellowship/november_mini_project.git
[Pipeline] Start of Pipeline
[Pipeline] node
Running on Jenkins in /var/lib/jenkins/workspace/docker-ci-cd-ec2-deployment
[Pipeline] {
[Pipeline] stage
[Pipeline] { (Declarative: Checkout SCM)
[Pipeline] checkout
Selected Git installation does not exist. Using Default
The recommended git tool is: NONE
using credential github-creds
> git rev-parse --resolve-git-dir /var/lib/jenkins/workspace/docker-ci-cd-ec2-deployment/.git #
timeout=10
Fetching changes from the remote Git repository
> git config remote.origin.url https://github.com/women-techsters-fellowship/
november_mini_project.git # timeout=10
Fetching upstream changes from https://github.com/women-techsters-fellowship/
november_mini_project.git
> git --version # timeout=10
> git --version # 'git version 2.48.1'
using GIT_SSH to set credentials jenkins authentication to github repo
Verifying host key using known hosts file
```

This screenshot shows the continuation of the Jenkins console output for job #16. The output continues from the previous stage, showing the checkout of the specific commit and the configuration of the sparse checkout. The output is as follows:

```
> git --version # 'git version 2.48.1'
using GIT_SSH to set credentials jenkins authentication to github repo
Verifying host key using known hosts file
> git fetch --tags --force --progress -- https://github.com/women-techsters-fellowship/
november_mini_project.git +refs/heads/*:refs/remotes/origin/* # timeout=10
> git rev-parse refs/remotes/origin/GROUP-D^{commit} # timeout=10
Checking out Revision 1cace259695be9b2036197612ec07bc288870cd3 (refs/remotes/origin/GROUP-D)
> git config core.sparsecheckout # timeout=10
> git checkout -f 1cace259695be9b2036197612ec07bc288870cd3 # timeout=10
Commit message: "modified Jenkinsfile"
> git rev-list --no-walk 6346b8d0b5f22499b28863b9b07601b5282d3570 # timeout=10
[Pipeline] }
[Pipeline] // stage
